

December 19th, 2005

Good Morning Members,

All of us at Systems News would like to wish all of our members a very Merry Christmas and a safe and Happy New Year. This last year has been a very good year at Systems News and our new slogan for 2006 will be “800 Members Nationwide”. Thanks you for your continued support and we will do our best to offer the best exposure and advertising for all of your Office Furniture sales & services. Included in this issue is our 2006 rate schedule for all of our services. Feel free to send any request via e-mail to: jim@systemsnews.com we will have complete support available during the Holidays.

Merry Christmas & Happy New Year,

A do it yourself repair kit that works!

All versions of the Herman Miller™ Equa Chair have been plagued with premature wear in the height mechanism which causes the chair to wobble. The plastic bushing in the center hub of the chair base wears to the point that the steel upper support tube flops back and forth inside the bushing. Crandall Office Furniture has developed a replacement bushing which eliminates the wobble. The new bushing can be installed on site and in minutes, extending the life of the chair up to 10 years. The old bushing is simply broken and slid out of the base and the new bushing is pressed in place with our install tool and a mallet. You never have to throw out an old Equa chair again.
